

## Moodle Version

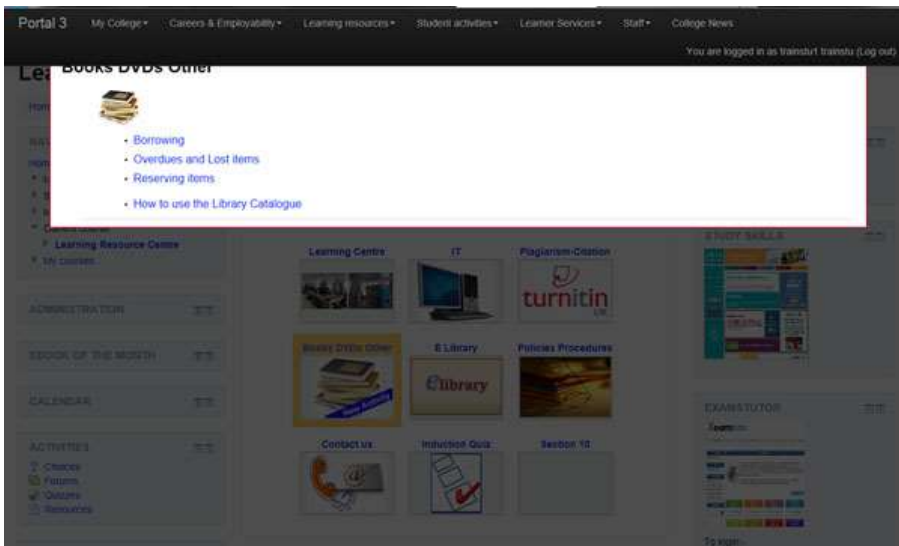

```
$version = 2014051200.04; // 20140512 = branching date YYYYMMDD - do not modify!  
// RR = release increments - 00 in DEV branches.  
// .XX = incremental changes.  
$release = '2.7+ (Build: 20140529)'; // Human-friendly version name  
$branch = '27'; // This version's branch.  
$maturity = MATURITY_STABLE; // This version's maturity level.
```

## Grid Plugin version (grid format)

```
$plugin->version = 2014080900; // Required Moodle version.  
$plugin->requires = 2014051200.00; // 2.7 (Build: 20140512). // Full name of the plugin.  
$plugin->component = 'format_grid'; // Software maturity level.  
$plugin->maturity = MATURITY_STABLE; // User-friendly version number.  
$plugin->release = '2.7.1.2';
```
