

Honors Assignments Settings- Moodle 2.6

You can acknowledge Honors assignments as complete or incomplete using *Outcomes* without needing to assign a grade. Three things need to be done to your course to achieve this. These three settings only need to be done if your course has Honors assignments. Make sure your Honors assignments are file submission – not Quizzes.

Turn on Outcomes at the Course level:

1. First allow Outcomes in your course: Click on the **Outcomes** button under Course Admin.

2. Click on “Honors” under the *Available standard outcomes (right) column*.

3. Click on the **Add** button to move “Honors” under the *Outcomes used in course (left) column*.

Add an Honors grading category (even though there won't be an actual grade):

1. Click on the **Grades** button under Course Administration

2. Change the drop down to show the **Simple view**

3. At the very bottom of the page, click on the **Add category** button.

4. Type Honors as the category name under **Grade category**. Don't adjust any other setting.

5. Save Changes.

Edit the settings of each Honors assignment:

1. Open the assignment and click on **Edit settings** under Course Administration.
2. Under **Outcomes**, check the “Honors” box to allow the complete/incomplete grading.

3. Under **Grade**, select these three settings: “No Grade,” “Simple direct grading,” and “Honors”

4. Save changes.

Student View in Gradebook:

Honors
