

CERTIFICATE of ACHIEVEMENT

This is to certify that

Admin User

has successfully completed the course

The Carbon Model

January 13, 2013

Maeve de France, President of CartONG

The course topics are:

- 1) Introduction to forest carbon project related concepts and definitions
- 2) Introduction to carbon accounting
- 3) Introduction to the use of remote sensing data and GIS for the modeling of forest vegetation dynamics
- 4) Introduction to functionality of a carbon gain loss simulation model for REDD+ prefeasibility applications
- 5) Analysis of carbon dynamics and economic/financial outputs of avoided degradation in model test applications
- 6) Assessment of the knowledge acquired in a final test

A score of 50% needs to be reached in the final test order to obtain a certificate.
