What our members say about Us

“I love Moodle. It has opened so many doors for me: new ways of teaching, multichannel learning and community support. I want to give something back and the MUA gives me that opportunity.”

Thom Rawson, Moodle Association of Japan.

“We chose Moodle because it’s best of breed and we joined the MUA to make sure it stays that way. What’s more, taking part in this open source community and staying in touch with the creators of Moodle is immensely rewarding.”

Richard Samson, University of Vic.
