# 1 Create Student-Quiz activity

Creating a Student-Quiz activity is similar to other Moodle activities. Go to your course and click on the “**Turn editing on**” button. Choose your topic where you want the new Student-Quiz activity and press “+ **Add an activity or resource**” on the right hand side.

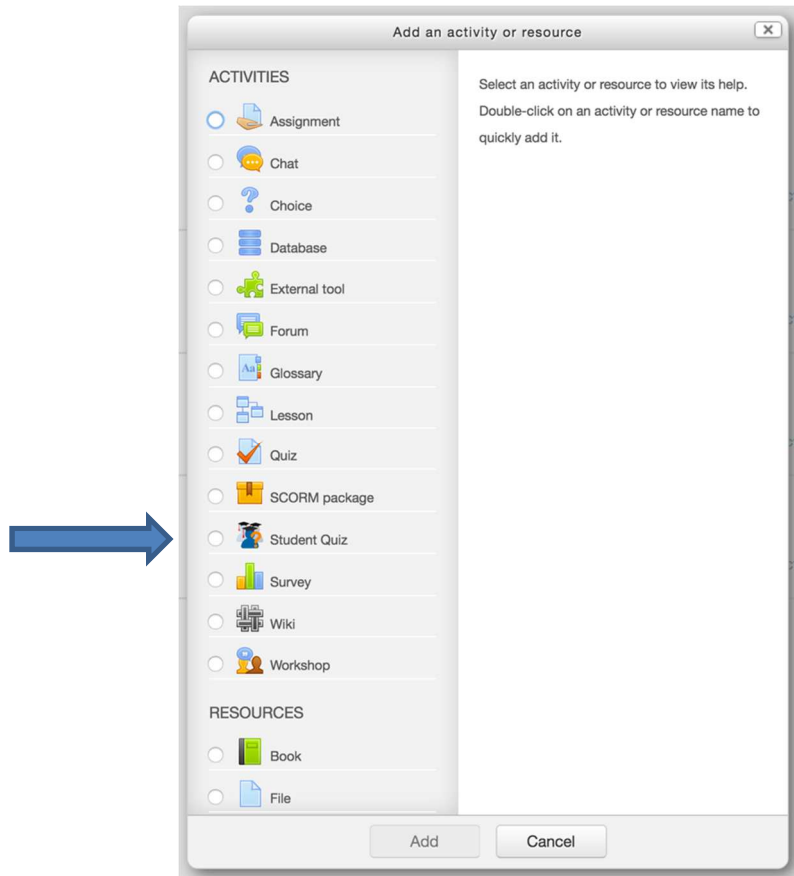

Figure 1: Add new Student-Quiz activity

Choose Student-Quiz and press “**Add**”. Give a name to the new activity. The Advanced settings is important. You have two options that you can configure.

## 1.1 Student anonymizer

The first option is Student anonymizer. This will prevent students seeing the name of the author of questions. Students still see the name for their own questions, and trainers always see the author names.

## 1.2 Rating and Comment

This option is missing when the Student-Quiz Question-Behavior plugin is not installed. In this case please contact your Moodle administrator to install it. This option adds the rating and

commenting behavior to the Quiz. It is recommended in order to get the full benefit of the Student-Quiz plugin.

## 2 Quiz and Questions

In the Quiz and Question view students can edit/delete their own questions only. Trainers/Teachers can edit/delete all questions.

## 3 Report

In the submenu Quiz of report trainers see the overall total of all students.

---

### Overall total

Number of attempts: 17  
Answered questions: 93  
Questions right: 67  
Questions wrong: 26  
Obtained marks: 67  
Participant count: 6

### Detailed statistic

Fullname	Number of attempts	Answered questions	Questions right	Questions wrong	Obtained marks
Max Muster	0	0	0	0	0
Hans Muster	4	45	28	17	28
Daniel Stark	8	35	27	8	27
Ingrid Sutter	1	2	2	0	2
Denis Frei	3	8	7	1	7
Anna Maier	1	3	3	0	3

## 4 Import / Export

If you want to import into the Student-Quiz activity, please unselect the options “write category to file” and “write context to file” so that the imported questions will be located within your Student-Quiz category.

### ▼ General

Export category ⓘ

→ ☐ Write category to file ☐ Write context to file

Figure 4: Export Question-Bank

If you use the export from Student-Quiz this option is not available to prevent any confusion.

## 5 Question-Bank

The navigation menu “Question bank” links to the course question bank and shows the questions added in the activity.
